

**REMARKS**

Claims 1, 3-6, 9-16 and 18-24 are all the claims pending in the application.

In the Advisory Action mailed March 15, 2006, the examiner stated that applicant's argument as to the reassembly indicators being incorporated into the control data without increasing the amount of control data was not persuasive because the term "adapt" was subject to a broader interpretation. The examiner suggested that the claims be amended to more clearly define what applicant considered "adapt" to mean. This has now been done in all independent claims, and for the reasons earlier argued, it is believed the claims as now amended clearly distinguish over the applied art.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account.

Respectfully submitted,
